If your home is worth anything, it is worth insuring. If insured, and your home burns, you have a new home in sight. When you insure, insure with a company that pays its losses. The best and oldest companies in the United States, are represented by Frank M. King, at the Line City Store.

The Southern Pacific railway company expects a heavy rush of business about the 20th of the present month. Business has increased considerably during the past two weeks and the crews have all been working over-time for several days. In the next few days more men will be put on to take care of the increasing business.

Willis P. Haynes, well and pleasantly remembered by old timers here, is cashier of the Columbia Smelting company near Crittenden. On the 12th instant he received a wire from Los Angeles saying that he was the dad of a 12½ pound girl. Willis has stepped high ever since. He no longer walks around the big bunches of saccato that cover the valley lands thereabouts, but steps right over them as though the big girl was on the other side and he feared she was going to get away from him. This gives Willis a pair, a boy and a girl. The former is rather more than two years old.—Tucson Citizen.

The charity concert given by the ladies of the Nogales Mandolin and Guitar Club Saturday night was a grand success. Over \$200 was cleared.

The playing by the Mandolin and Guitar Club was fine. The ladies have only been playing about a month and considering the short time they have been organized they do remarkably well.

ARRESTED FOR SMUGGLING.

Mr. Hunsaker Attempts to Cross Cattle Without Paying Duty.

Geo. W. Webb of Nogales, United States custom inspector, arrived in this city today with two prisoners, G. Hunsaker and a Papago Indian, a vaquero.

It seems that some time since Hunsaker bought a bunch of twenty-three head of cattle from Indians, which proved to have been stolen, and he was forced to give them up to the rightful owner. He immediately started for Sonora to try and find the Indians and if possible to get the money. He found them in the vicinity of El Plomo, but they could give him no money, and agreed to give him more cattle to make good the loss.

The cattle were delivered to him and he and an Indian vaquero whom he had hired to help drive the bunch home to Mesa City, were arrested for smuggling

while driving the cattle across the line without first having paid duty. They were brought to this city and tried before Court Commissioner Hazzard at 10 o'clock this morning. Hunsaker claimed that he thought the Indians had a right to drive the cattle across the line and that he had no intention of trying to defraud the government. The case, however, from his own statement was so plain, and he at the same time acknowledging that he did not pay any duty, Commissioner Hazzard bound him over to await the action of the grand jury at their next meeting in the penal sum of \$300. The Indian it was plain, was not responsible, being merely hired to help drive the cattle and was released.

The gang of Indians from whom Hunsaker bought the cattle, have been operating for a long time and are wanted on several charges by the customs officers of both United States and Mexico, and if they are caught it will probably go hard with them.—Tucson Citizen.

The great ranch in San Anita has been a white elephant for "Lucky." It is a great thing as a show, as water is brought to every tree, but every orange on the tree costs money.
